JOHNSON FAMILY DENTRISTY

Local Anesthetic Consent Form

We strive to make dental care as comfortable as possible. One of the strategies we employ is the use of dental anesthetics (such as lidocaine, mepivacaine, articaine). Although the use of local anesthetics is a safe, well-established procedure to control pain, adverse reactions can occur. These reactions include, but are not limited to, the following items:

1. Rapid heartbeat – The anesthetic may make your heart race for a few minutes after the anesthetic is administered; it usually is short lived. If you have high blood pressure, please let Dr. Johnson know.
2. Fainting – can be associated with a rapid pulse, usually associated with fear.
3. Hyperventilation – This is characterized by rapid breathing, lightheadedness, tingling in the hands, and possible tightness in the chest. It is also usually associated with fear.
4. Allergic Reactions – These are extremely rare with the anesthetics we use. They can be characterized by swelling, redness, or anaphylactic reactions that involve trouble with breathing. If you have experienced an adverse reaction to an anesthetic before, please let us know.
5. Toxicity Reactions – These occur from overdose or rapid absorption of the anesthetic into your blood stream. We will never administer more anesthetic than is recommended for your body size, but, it is important to understand that everyone has a different tolerance to medications.

Complications that can arise from the use of a local anesthetic include:

1. Numbness to additional areas of the face can occur due to variations in nerve anatomy. These areas will start to feel normal after the anesthetic wears off, usually in 1 to 4 hours.
2. Paresthesia can occur when a nerve is traumatized during the administration of anesthetic. This may result in a lingering feeling of numbness or tingling, burning, or pain. Although rare, it most often occurs when numbing the lower back teeth. In most cases, the symptoms of paresthesia gradually diminish with time, but, in some rare cases they may be permanent. Unfortunately, the only alternative to avoid this risk is to have the dental work completed without anesthetic (most people accept the risk!). If you experience symptoms of paresthesia after dental work, please inform us as soon as possible because early treatment is essential for certain cases of paresthesia.
3. A "shocking" sensation can occur when the anesthetic is administered close to the nerve, it is usually short lived.
4. Hematoma – This is characterized by blood pooling outside of the blood vessels and can have the appearance of a swollen bruise. It occurs when a blood vessel is punctured during the procedure. They may be visible for up to two weeks, but will usually resolve on their own.
5. Trauma to the lips & cheeks while the anesthetized tissue is numb.
6. Jaw pain can result from the muscles around the area of the anesthetic or from holding your mouth open for an extended period of time during dental work.

Please let us know if you have had any type of allergic or adverse reaction to dental anesthetics in the past. Fortunately, complications related to the use of dental anesthetics are rare.

I consent to the use of dental anesthetics whenever Dr. Clark Johnson recommends it for dental treatment. I understand that I can certainly request not to use anesthetic for any procedure.

Financial & Appointment Policy

Welcome to our practice! We value and appreciate the fact that you have entrusted us with your dental care. Our goal is to provide gentle, comprehensive family dentistry in a comfortable setting. To accomplish this goal and maintain a high quality level of care, we must be paid in a timely manner. To avoid any confusion, we have established the following policies regarding payment of services.

*We accept cash, personal check, money order, Visa, Master Card, or Care Credit. Checks returned for any reason will be subject to a $25 fee, and the account holder will lose check privileges with our practice.

*__**Full Payment**__ is expected

__**Cash Discount Over $500 (For Patients Without Insurance):**__ We offer a 5% discount for all treatment over $500 for which you pay in full (cash or check) at time of service.

__***Major Service – Two Payment Options:**__ We offer a two-payment option for Crown, Bridge and Denture treatment. We ask that you pay-one-half of your co-payment at the first appointment and the second half at the delivery date appointment.

*__**Credit Card Payment Option**__: We allow (with a signed agreement form and established payment history with our office), a Credit Card Payment Option, which allows you to make three equal installments by credit card. One-third payment is due at the first appointment, one-third is due thirty days later, and the remaining one-third is due sixty days from the initial appointment. Our office personnel will charge these payments to your credit card on the due dates.

*__**Term Loan:**__ Upon approval by Care Credit, we offer our patients an interest-free term loan (up to 12 months) through Care Credit with no down payment, no annual fee, and no prepayment penalty. Please ask for an application.

*__**In the Event of Divorced or Separated Parents**__: The parent who brings the child into the office for treatment is responsible for payment regardless of what the divorce or separation court documents state or who the insurance policy holder is.

*As a courtesy, we will file your dental claim with your insurance company. Your deductible and co-pay or any portion not covered by your insurance company is due at the time of service. The agreement to pay for your dental care is a contract between you & your insurance carrier, and they rarely cover all costs. You are responsible for any amount that your insurance does not cover. Since we do not have a way to track your dental visits with other dentists, we are unable to maintain an accurate annual allowance for you. Please be aware of the annual maximum allowance you have with your insurance carrier when scheduling your appointments. You should be "aware" that your insurance company may not cover composite (white) fillings for posterior teeth and the additional cost will be your responsibility if you choose a composite filling.

*Accounts not settled in a timely manner will be turned over to a collection agency. The responsible party for each account will be charged any fees associated with collections, including attorney fees, court costs and late fees. Delinquent accounts will be charged interest at the rate of one percent per month.

*Broken appointments are costly and inconvenient to other patients, as well as our office. Kindly give 24 hours notice if you are unable to keep your appointment. Multiple broken appointments will lead to you and your family being dismissed from our practice. If you are more than 15 minutes late for your appointment, we may have to reschedule you for another day. We reserve the right to charge $50 for broken appointments.

We appreciate your cooperation with these policies. If you have any questions, feel free to speak to our office staff.
